"An atmospheric holiday villa with far reaching views and a relaxing outdoor area, perfect for families"

With a hillside position overlooking Ageria bay and with far reaching sea views towards the neighbouring island of Antiparos, Villa Cleo is a perfect family villa.

The property was originally built as two freestanding buildings, then later linked by a long corridor. With windows all along it, it is now a bright living area, full of natural light and the focal point of the villa.

The décor is neutral and interspersed with the owners art, bringing a vibrancy to the natural charm of the property. The outdoor space is first class: comfortable seating areas, large terraces and a covered pergola area offer excellent places to either sit back and relax to the impressive seascape with a glass of your favourite beverage or to indulge in memorable family dinners.

The swimming pool area is also partly shaded – great for the fair skinned who wish to have a paddle out of the midday sun!

The village of Ageria is 2 kms away, tennis courts within 12 kms. Beach 1 km at Farangas. Paros airport 3 kms.

Accommodation

Main House:
