"A true James Bond chalet...a chalet of a level never before seen in Morzine or the Portes du Soleil."

Sleeps max 10 adults and 4 children (5 bedrooms and 1 family room including bunk beds)

"Create a space I would be truly excited to stay in". That was the brief given to renowned architect, Herve Marullaz, after Chalet Joux Plane's owner secured a large plot of mountain land that backed onto a stream and an alpine woodland. The result was Chalet Joux Plane.

Chalet Joux Plane is a chalet built without constraint. The chalet itself is spread over 600m² with one end made almost entirely from glass and dedicated to mountain views. A 23m indoor-outdoor swimming pool passes right through the building allowing guests to swim both inside and out. The middle of the chalet is dissected, top to bottom, by a glass atrium that offers natural light to every floor and every space.

The building itself nestles into the mountain and you enter down a 15m underground tunnel that takes you from the garage and boot room into the very heart of the chalet. The chalet itself is spread over 600m²,

with one side of the chalet almost entirely glazed, offering mountain views from all the living spaces and entertainment areas. The chalet can sleep up to 14 guests across 5 luxurious bedrooms and a family/children's bunk room, all opening out onto secluded terraces and enjoying free standing baths and hanging seats.

The specification list for the chalet is, of course, almost endless and includes a 23-meter indoor-outdoor swimming pool, a Bamford Spa including treatment room and sauna, a private gym, a cinema room, art gallery and children's playroom. The living space is vast and includes a luxurious lounge area with open fireplace and delicious sofas, a library, a floating mezzanine dining area and a bar mezzanine with balcony overlooking the mountains. The chalet is located in a private, elevated location; just a few minutes chauffeur drive from central Morzine. Competent skiers can ski in from the Morzine side of the valley via a short stretch of gentle off-piste. The chalet enjoys easy access to Morzine, Les Gets and Avoriaz that all form part of the gigantic Portes du Soleil – one of the largest ski areas in the world.
